Serving Illinois, Indiana, Iowa, Michigan, Minnesota, Missouri and Wisconsin

Clinical Training:

Physician Core Seminar on HIV Intervention

- ❖ HIV Pathogenesis: New Findings and Implications for Clinical Practice Core
- ❖ HIV Prevention and Test Counseling
- ❖ Individualized Clinician Training Program
- ❖ Oral Health and HIV lecture series
- ❖ Preventing Opportunistic Infections
- ❖ Pregnant Women and HIV

Consultation:

The facilitated clinical consultation is designed for providers who have participated in our MATEC programs. It is not a general consultation service. We want to foster existing consultation patterns by structuring a complementary service rather than a competitive one. This service addresses the gaps in current networks and should serve as the "safety net" for consultation for patients that may have limited access to services.
