---

## **Clinical Training:**

Health promotion and disease prevention strategies  
Immunology/virology  
Clinical manifestations of HIV  
Current HIV treatment protocols  
Control of bloodborne pathogens in health care settings

---

## **Consultation:**

The Mountain Plains AIDS Education and Training Center provides an e-mail consultation service for healthcare providers with questions about the care of HIV-infected and at-risk patients. The services are free and provide timely easy-to-access information. Questions can be sent to: [HIVConsultation@uchsc.edu](mailto:HIVConsultation@uchsc.edu).

The MPAETC, as a Center of Excellence, in collaboration with the [Hep-C Connection](#), the [Viral Hepatitis Program](#) (CDC), [John Snow, Inc.](#), [Project Safe](#), and the Divisions of [Gastroenterology](#) & [Infectious Diseases](#) at the University of Colorado Health Sciences Center, serves as the National Center of Excellence on HIV/HCV Co-Infection and meets the education needs of clinicians through co-infection-specific education materials, clinical training programs, and didactic presentations. For additional information please access the Mountain Plains AETC web site or call (303)-315-2516.
